## Copper Mineralisation at Wologorang

Gulf Mines Limited (ASX:GLM) are pleased to announce the drilling programme at Wologorang Copper Project in the Northern Territory has commenced.

The first hole into the Masterton Ridge was completed to 501.6 m.

- Visible copper mineralization was intersected in numerous intervals along the hole
- One section at 413 m intersected massive copper sulphide mineralization over 15 cm.

Core is being split for assay. Results can be expected in several weeks.

The drilling programme is aimed at probing several target types, and is continuing.

For further information contact Graham Reveleigh 07 4033 1805

Gulf Mines Limited is a rapidly developing junior exploration company with significant projects in the Northern Territory and Queensland for uranium, copper and zinc, gold and diamonds. The Company is focused on bringing the targets in these project areas to development by ground exploration and drilling as quickly as is technically possible. Gulf Mines will develop and mine resources it identifies "in house". The company will continue to acquire good quality exploration plays as they are identified.
